SETTLE-SOCIAL ENTREPRENEURSHIP TRAINING
VIA ICT LEARNING ENVIRONMENTS
NO. 2015-1-UK01-KA202-013761
GENTUTĖ GEDVILIENĖ, Vytautas Magnus University

Coordinators of the project – University of East London, United Kingdom.

Project partners:
Personal Training GMBH, Austria.
DRAMBLYS (Social Creativity Lab), Spain.
Domhan Vision UG (haftungsbeschränkt), Germany.
Interactive Media Knowledge Transfer, Greece.
Vyautas Magnus UniverSITY, Lithuania.

Project aims: to create a learning and training framework to promote competences and skills of social entrepreneurs contributing to the European 2020 strategy of smart, sustainable and inclusive growth and new skills for new jobs strategy.

The project will be addressed to the following collectives:
- New social entrepreneurs;
- New entrepreneurs;
- Social intrapreneurs (those who are interested in social corporative entrepreneurship);
- Trainees and students;
- Trainers on social entrepreneurship;
- Trainers and lecturers on business managements;
- Experts on social entrepreneurship and on entrepreneurship;
- Experts on the development and definition key skills and competence.
- Experts on training/activities;
- Policy makers;
- Stakeholders.

SETTLE will aim at developing basic and transversal skills using innovative methods. The project intends to promote and foster social entrepreneurial skills using an open and collabo-

rative platform based on Lab learning methodology. Thus, the project is intended to promote basic and transversal skills (entrepreneurship) using an innovative learning method based on collaborative learning, constructivism, and the use of ICT facilities. The development of a Eu-

ropean training pathway will also contribute to the definition of the cross-cutting of training on entrepreneurship offering a new framework to obtain these skills.
